STORMWATER TAP PERMIT GUIDE

Application Requirements

1. Legal description of the property
2. Scale drawings, blueprints with elevation view showing all dimensions
3. Registered Town of Hebron Contractor and/or Subcontractor(s) for current year
4. Completed permit application

Building Code and Zoning Requirements

Residential:

1. Contractor MUST CALL INDIANA811 before you dig.
2. All work shall comply with the Town of Hebron's Municipal Code Appendix A - Land Use Appendix B, and Stormwater Ordinance 04-01-b, which can be found at www.hebronindiana.org.
3. Storm drainage and surface water installations, including roof downspouts, foundation footing drains and/or sump pumps, shall not be connected to or allowed to empty in the sanitary sewer system.
4. The minimum diameter for all service laterals shall be no less than four (4) inches. Residential laterals can be converted to two (2) inch schedule 40 PVC within four (4) feet of the foundation wall by way of a reducing mission coupling.
5. A cleanout shall be installed within four (4) feet of the foundation wall. All storm water laterals will have tracer wire installed for later location. The tracer wire will be clearly visible at the cleanout.
6. All joints shall be made gas tight and water tight. Solvent weld joints will not be excepted.

Commercial or Industrial:

1. All plans for proposed projects must pass an engineering review by a state certified PE approved by the Hebron Stormwater management board.
2. For all industrial connections to the storm water system, property owners shall submit a water quality report to validate proper water quality for all discharges into either the system or another regulated water course
