Public Works Report - Storm Water

- We received a complaint regarding water in the alley off Washington Street to Main Street near Goodbyes. We found a sump pump discharging water from 110 W. Sigler. We shut the water off for an hour and the sump never stopped running. We changed the meter on January 4, 2022, and found that the house has 2 cisterns and 4 pumps running. The first time we checked the water sample we had no chlorine in it but the second time we did. We will keep investigating.
- 309 S. Van Buren had a sinkhole that we ran our camera through and found that it had a small hole in the top of the tile. This tile is roughly 12 ft. deep so digging is not an option. We will explore getting this section of the pipe lined.
- The Storm Water Board met and began developing a 20-year Capital Project Plan. Chip with Abonmarche will start putting cost to each project.
- The Drainage Board may want to evaluate the budget and consider increasing tapping fees.

Merle Foresman inquired of the leak at Ben Butler and Bates Streets. Randy Decker stated that something will be done next week.

Update:

Closing of Quincy Street - Mr. Decker stated that the Town doesn't need to have an easement and that area can be closed.

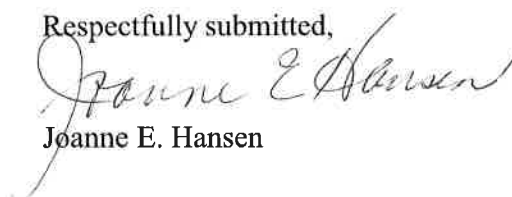

Past three week, the Department has been picking up leaves and paving.

President Stalbaum noted that the storm water tap fee should be increased. He noted that it is currently \$35.00 per home for storm water tap fees. Discussion ensued.

Old Business - None

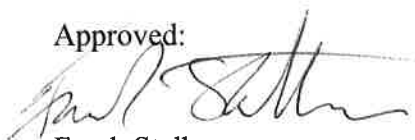

There being nothing further before the Board, on motion of Frank Stalbaum, seconded by Merle Foresman, and duly carried 2-0, the meeting was adjourned.

Respectfully submitted,

Joanne E. Hansen
