Mr. Decker told Mr. McHenry to call Town Hall and a work order will be prepared so that the street department can look into the problem.

**STORM WATER**

**OLD BUSINESS**

- We received a complaint regarding water in the alley off Washington Street to Main Street near Goodbyes. We found a sump pump discharging water from 110 W. Sigler. We shut the water off for an hour and the sump never stopped running. We changed the meter on January 4, 2022, and found that the house has 2 cisterns and 4 pumps running. The first time we checked the water sample we had no chlorine in it but the second time we did. We will keep investigating.
- 309 S. Van Buren had a sinkhole that we ran our camera through and found that it had a small hole in the top of the tile. This tile is roughly 12 ft. deep so digging is not an option. We will explore getting this section of the pipe lined.

**NEW BUSINESS**

- We were contacted by Matt Norris from RLM about a broken pipe behind their shop (picture are attached). The ditch has washed away and caused a section of the pipe to come apart. I have contacted Bob Cauffman to assist in repairing this.
